

Bachelor's degree program in Biomedical Laboratory Techniques

Teaching: PROFESSIONAL LABORATORIES 3

SSD Teaching: MEDS-26/A

Responsible Teacher: [Fabbio Marcuccilli](mailto:fabbio.marcuccilli@unicamillus.org) e-mail: fabbio.marcuccilli@unicamillus.org

Number of CFUs: 1

PREREQUISITES

Attendance of first, second and third year classes.

EDUCATIONAL OBJECTIVES

To have the student acquire technical and practical problem solving skills, especially in the context of the analytical phase of laboratory medicine. The professional laboratory provides an opportunity for the student to transfer theoretical concepts to practice.

PROGRAM

Analytical and innovative investigations in laboratory medicine.

TEACHING MODALITY

Lecture series with discussion of case reports.

MODE OF VERIFICATION OF LEARNING

The student will be required to submit a final report on the activities carried out as per the syllabus, the paper of which will be evaluated not as a proficiency exam, but as a passing or failing grade.
