

CURRICULUM VITÆ

PERSONAL INFORMATION

Name **ANGELA GIUSTI**
e-mail angela.giusti@iss.it
Workplace: National Institute of Health – Istituto Superiore di Sanità
National Center for Disease Prevention and Health Promotion - CNaPPS
Via Giano della Bella 34, 00161 Roma - Italy
Tel +39 06 4990 4246 - Fax +39 06 4990 4248

PERSONAL SKILLS

LANGUAGES Italian (*mother tongue*)
Reading, written, spoken: English, French, Portuguese, Guiné-Bissau Criol
Spoken: Fulfulde

JOB-RELATED TECHNICAL SKILLS Public health, qualitative and quantitative research, epidemiology, action-research, stakeholders and community participated processes, communication applied to public health. Promoting health in disadvantaged groups, addressing inequality, migrants and asylum seekers health, groups at high risk of vulnerability.
Interventions in humanitarian emergencies and natural disasters, with specific focus on pregnancy and infant feeding.
Promotion of maternal and child health, primal health and breastfeeding, adolescent health. Prevention and care models for the management of chronic non-communicable diseases, organized screening.
Pharmacoepidemiology, pharmacovigilance and phytosurveillance.
Project management and evaluation of health programs at national and international level.
Adult education, training of trainers, training design and evaluation, e-learning, management of Communities of Practice.
Counseling, team working, team building and effective communication models.

COMMUNICATION AND RELATIONAL SKILLS Capacity to work with other people, in a multicultural environment and where cooperation, collaboration and shared solutions are important.

ORGANISATIONAL /MANAGERIAL SKILLS Capacity to design, coordinate and implement health programs, training, monitoring and evaluation.

DIGITAL SKILLS Microsoft Office package, software for graphics, audio, video, data collection and statistical analysis (Epi-Info, Epi-Data, Epi-Map, SPSS), analysis of qualitative data (NVivo, QDAMiner) creation of learning objects (Articulate). Creation and management of websites, blogs, newsletters and e-learning platforms (Blackboard, Moodle, blogspot, wordpress)

WORK EXPERIENCE

SINCE 2003 **Researcher at the National Institute of Health, National Center for Disease Prevention and Health Promotion**

Scientific responsible

- Project "G-START - Governance, Health, Territory, Reception for asylum seekers and refugees: experimentation of a model". European Commission, Italian Ministry of the Interior, 2018-2021
- Project "Activities to support the training network for the protection, promotion and support of breastfeeding and the promotion of the health of women and children". Order of the Midwives of Rome (2016-2020)
- Distance learning program on breastfeeding, Val Padana Health Protection Agency, (2017-2019)
- Research project on the use of drugs of reproductive age, pregnancy and lactation, USSD Clinical Toxicology, ASST Pope John XXIII, Bergamo (from 2016 - ongoing)
- Project to promote the regional network to support the Prevention Plans in Sicily Region (2015 - 2018)
- Distance Training Project on Breastfeeding, ULSS of Verona, (2013-2015)
- Research project on paediatric perioperative prescribing appropriateness (AIFA-ISS) (2011-2015)

Participation in Internationa, National and Regional Projects

- Organization of mother and child care and early detection of health needs of the vulnerable population in Souda Camp refugee camp in Chios (Greece), in collaboration with Nurture Project International (2016)
- Chrodis Plus, Joint Action between Member States and the European Commission to support the implementation of good practices and evidence-based recommendations to improve the quality of prevention and treatment of chronic diseases (2017-2020).
- CRODIS-JA, Joint Action between Member States and the European Commission "Addressing chronic diseases and promoting healthy aging across the life cycle". Work Package 7 Practice Community Design - Diabetes www.cnesps.it/diachronics/ (2013 - 2017).
- Pharmacovigilance in the Lazio Region (AIFA-Lazio Region-ISS) (from 2010-2015)
- ReSP Calabria. Project "Constitution and experimentation of a Regional Epidemiological Network, based on Operative Units of Business Epidemiology, for the surveillance of population health and the implementation of prevention interventions and monitoring of results" (2011-2014)
- ALCOVE, Joint Action between Member States and European Commission for the Study of Dementia in Europe (2011-2013)
- Project Construction and support for Epidemiological Business Centers and the Regional Network for Applied Epidemiology and Population Health. Sardinia Region (2010-2012)
- Integration, Management and Assistance for Diabetic Disease (IGEA Project) (from 2006-2014)
- National Registry of Medically Assisted Procreation (PMA Registry) (2005)
- Cardiovascular risk prevention National Program, National Institute of Health (Progetto Cuore) (2004-2005)
- National program for breastfeeding protection, promotion and support, National Institute of Health (2003-2005)

Technical and scientific collaborations

- Technical-scientific collaboration with Save The Children Italy and Unicef for the promotion of good practices of preparation, response and recovery in humanitarian emergencies and natural disasters, with a focus on the health and nutrition of mothers and children in the first 1000 days (2017- ongoing)
- Scientific collaboration with local and regional committees of the Red Cross and Civil Protection for training interventions on the guidelines for the management of child nutrition in emergencies (2016 - ongoing)

- Collaboration with the Emergency Nutrition Network for technical-scientific revision of the Operational Guidance for Infant Feeding in Emergencies (2007-ongoing)
- Support to Municipalities and Associations for the elaboration of Municipal Emergency Plans for aspects of child nutrition in emergencies (2016 - ongoing)
- Preparation of position statement on vegan weaning on commission of the Presidency of National Institute of Health (2017)
- Participation in representation of the National Institute of Health at the International Consultation on Nutrition and Pregnancy, organized by the World Health Organization, European Regional Office in Riga (27-28 June 2016)
- Scientific collaboration with the Technical Board on the first 1000 days of life of the Ministry of Health for the development of communication materials for professionals and citizens (2017-2018)
- Preparation of position statement for the Commission for the assessment of admissibility to the Phase 1 clinical trial for devices for female use (08.04.2016 - 06.05.2016)

Qualitative and mixed-methods research, participatory action-research

- Qualitative surveys, mixed-methods studies, action-research
- Vaccine hesitancy in an area of low-coverage Palermo ASP for MPR vaccination. Research-Intervention with Pediatricians to increase vaccination coverage (2017)
- “Community Activators”: the participatory approach to support the objectives of the Regional Prevention Plan. Research-Participated Action. Sicily Region (2017)
- Neonatal blood donation from umbilical cord: knowledge, attitudes and practices of women, midwives and female students in obstetrics (2016-2017)
- Evaluation of projects to promote prescription appropriateness with SWOT Analysis (2015)
- Survey on the perception of organizational well-being in the traffic wardens of the territory of the ASP of Catanzaro (2014-2015)
- Pathological dependencies: analysis of the local situation - ASP Reggio Calabria (2014-2015)
- Fungal poisoning in the Calabria region: mixed-methods study (2014-2015)
- Determinants of pediatric perioperative prescribing appropriateness (2013)
- Use of medicines and breastfeeding management (2012)
- The reporting of adverse drug reactions by nurses and midwives in the Lazio Region (2012)
- Accessibility to services and information needs of foreign people with diabetes (2010)
- Effects of the earthquake emergency in Abruzzo on the birth and on infant feeding practices (2010)
- Communication of diagnosis in dementia (2010)
- Perceived quality of the care model and information needs of people with diabetes and health workers (IGEA Project)
- Parental participation strategies for the national project to promote the health of school-age children and the prevention of obesity (OKKIO to health)
- Women's and mothers' opinions regarding the anti-HPV vaccination campaign for girls promoted by the Ministry of Health
- Reasons for membership and non-adherence to rooming-in by women in the first days after childbirth
- Information needs of couples accessing Medically Assisted Procreation techniques (National PMA Registry)

Epidemiological studies and Guidelines

- InPRIMIS. Survey on primal health and determinants of breastfeeding in Sicily Region (2017-ongoing)
- “Save Eve” in Sicily: pilot project to increase adherence to organized cervical cancer screening through the active involvement of GPs in Gela environmental risk area. Community Trial. (2017-

2018)

- Implementation of a monitoring system on the effects of the crisis on the health of the Sicilian population (2017-2018)
- Multi-center study on the use of lactating drugs, pharmacovigilance, phytosurveillance (2015-2017)
- Multicenter study on neonatal cord blood donation (2015-2017)
- Save Eva in Sicily. Cross-sectional study on adherence to cervical cancer screening (2015-2016)
- Multicentre study on the marketing strategies of the follow on formulas for infant and young children feeding (2013-15)
- Multicenter study on the information supply in neonatal discharge cards (2013-2015, follow-up 2018)
- Healthy eating, physical activity and prevention of obesity: a qualitative study of parents' and children's perceptions in Calabria (2014-2015)
- The perception of psychotising effects related to cannabis use in young people: research data. Calabria Region (2014-2015)
- Descriptive study of knowledge, attitudes and practices of pregnancy guidelines, and their application in the province of Cosenza (2014-2015)
- Analysis of childbirth in the Locri district and comparison with the foreign population (2014-2015)
- Member of the Multidisciplinary Panel for the development of new Guidelines on integrated diabetes management. Systematic review of the literature by Guidelines in collaboration with the Ceveas of Modena (2011).
- Knowledge, Attitudes and Practices (CAP) surveys on various public health topics (EBM, pharmacovigilance, infant feeding, use of breastfeeding drugs)
- National epidemiological survey on the Birth Pathways, data analysis and communication of results
- National epidemiological survey "QUADRI Study " on the quality of care for people with diabetes

Education and training planning, implementation and evaluation

- Design of the II level Master in Applied Epidemiology in collaboration with the Faculty of Medicine of the University of Palermo and the Sicily Region (2016-2018)
- Operational Planning for training health professionals to support the Regional Prevention Plan. Sardinia Region (2017-2018)
- Design and implementation of Distance Learning on the Promotion of Breastfeeding as part of the Health Gaining Project of the Ministry of Health (2013-2014, 2015-2016, 2017-ongoing)
- Planning and implementation of the training intervention "Effective Communication in Health Promotion", AUSL Umbria 2 (2016)
- Integrated pathways for the management of chronic diseases. Distance learning system, National Institute of Health (2013-2015)
- Participation in the implementation of the Interregional Distance Training on Pharmacovigilance (2014)
- Design of the II level Master in Applied Epidemiology in collaboration with the Faculty of Medicine of the University of Rome Tor Vergata and the Calabria Region (2011-2014) www.respcalabria.it
- Design and implementation of trainings for trainers and basic courses within the WHO / UNICEF Baby Friendly Hospital & Community initiative (2008-2014)
- Design of the II level Master in Applied Epidemiology in collaboration with the Faculty of Medicine of the University of Cagliari (2010) www.cea-sardegna.it
- Participation in the planning of a training course on the Project Cycle Management for the regional representatives of the National Prevention Plan (2010) www.comunitapnp.it
- Design and implementation of a blended training course on pharmacovigilance for General Practitioners and Pharmacists of the Lazio Region, Lazio Pharmacovigilance Commission (2009-2010) www.farmacoeipi.it
- Activation of the Community of Practice for Pharmacovigilance in the Lazio Region (2010)

www.farmacoeipi.it

- Design and implementation of a training course on Project Cycle Management for public health planning for operators of the Mother-Child Department, ASL of Milan (2009)
- Design of an e-learning training course on Moodle platform on folic acid supplementation, promotion of breastfeeding and use of lactating drugs in the National Register of Rare Diseases (2009)
- Design and management of the e-learning platform and blended training www.formazioneperlasalute.it for distance support and the promotion of learning communities in the healthcare sector (since 2007)
- Design of an operative / training package for the training of trainers for regional and local representatives of the IGEA project (2007-2010)
- Training of regional trainers on the promotion of breastfeeding according to the WHO/UNICEF model (80 hrs) as part of the Regional Plan for Active Prevention of Obesity - Calabria Region (2007)
- Planning of the regional training path for trainers of the courses for the issue of renewal of the authorization for the purchase and use of plant protection products (patentino dgr 669/2002) - Regione Lazio (2007)
- Training of health workers on the use of qualitative research techniques with focus groups and implementation of a survey on the community health profile - Autonomous Province of Trento, Trento ASL (2007-2008) and ASL of Treviso (2008-2009).
- Design and implementation of the National Training Plan on cardiovascular risk prevention (2004-2005)
- Evaluation of training with objective tests and item analysis systems, medium-term evaluation with KAP tools (Knowledge, Attitudes, Practices) (since 2003)
- Training of University trainers with teaching models WHO/UNICEF on breastfeeding (since 2003)
- Curriculum and "in service" training modules for midwives on the promotion of breastfeeding at national and regional level (since 2003)
- Training of trainers within Peer Counseling programs for breastfeeding (since 2003)
- Curricular and continuous training of health workers on EBM and public health (since 2003)
- Training in adolescent health promotion programs (Peer Education) (since 2003)

Planning and implementation of Communication Campaigns

- Regional project "From risk perception to health promotion in the environmentally risk area of Milazzo: communication, involvement and active participation of the population, Sicily Region (2017-2018)
- Communication campaigns in the area of Women's Health, Ministry of Health (2016-ongoing)
- Regional project for communication in vaccination practice: operational models to standardize and implement the offer in the Sicily Region (2017-ongoing)
- "What a milk!" National campaign for breastfeeding promotion, Ministry of Health, 2015 (Event in Rome)
- National Campaign for Integrated Management of Diabetes (IGEA project, Ministry of Health) (posters, brochures, website, video and spot for national campaign)
- National Register of Medically Assisted Procreation and related services (brochures and website)
- Promotion of breastfeeding and preparation of audiovisual material (television spots, posters, brochures)

University Lecturer

Co-Coordinator and lecturer of the Master in Population Health PROSPECT, University of Palermo (2015 - 2018)

Lecturer in the Master's Degree in Nursing and Obstetric Sciences, Faculty of Medicine and Surgery

of the University of Rome-Tor Vergata, Didactics and Special Pedagogy (2006-ongoing)

Lecturer at the 1st level Master "Community Midwifery and health of women and the newborn", "Counseling as a tool for empowerment and Evidence-Based Practice" and "National and international policies for the protection, promotion and support of breastfeeding ", University of Modena and Reggio Emilia (2015-2018)

Lecturer at the first level Master in "Autonomy of the midwife in the management of pregnancy, childbirth and low risk puerperium", theme "Evidence-Based Practice, prevention and promotion of the health of women and children", University of Modena and Reggio Emilia (2015-2017)

Lecturer in the Master in Management for the nursing coordination functions and for the health professions, theme "Methodology of Communication and Adult Education", University of Rome Tor Vergata, Policlinico Militare di Roma "Celio" (2013-2016)

Lecturer at the 1st level Master in Clinical Nursing of the Critical Patient, "Communication and Adult Education Method" theme, University of Rome Tor Vergata, "Celio" Military Policlinico of Rome (2013-2016)

Lecturer in the Obstetrics Degree Course, theme "protection, promotion and support of breastfeeding: from public health policies to clinical management", University of Rome Tor Vergata (2013 - 2016)

Lecturer of the Master in Tropical Medicine and International Health, theme "protection, promotion and support of breastfeeding" and "Child nutrition in emergencies", the University of Brescia (2011-2016)

Coordinator and lecturer of the Master in Applied Epidemiology and Population Health, University of Rome Tor Vergata (2011 - 2014)

Lecturer and member of the II level Master's Degree Course in Applied Epidemiology, University of Cagliari (2010 - 2012)

Lecturer at the Faculty of Medicine of the Catholic University of the Sacred Heart in Rome, Master's Degree in Nursing and Obstetric Sciences, Prevention and Health Services Sciences (2006 - 2011)

Teacher of the Postgraduate Course "Teaching and learning of professional skills", Catholic University of Rome (2005)

Volunteering

La Leche League Leader (2003-2013)

PREVIOUS WORKING EXPERIENCE

- 2001-2002** Midwife at "Paul d'Égine" Hospital, Champigny, France
Collaboration with "Espace Cambodge" Association (Parigi, Phnom Penh)
- 2000** Consultant at the Regional Health Directorate (Atacora – Benin)
Main activities:
- elaboration and implementation of a participatory research-action on the emotional and sexual health of adolescents (in collaboration with the ONU-FNUAP Agency)
 - feasibility study for the realization of an action-research for the reduction of maternal mortality and improvement of social and health services on the territory
- 1995-1999** Consultant for the ABN-SSP Primary Health Care Project (Netherlands-Benin bilateral cooperation) for the promotion of the quality of mother and child care in the Atacora region (Benin)
Main activities:
- feasibility study for the reduction of maternal morbidity and mortality
 - support to local NGOs for the study and implementation of actions to promote maternal and child health
 - organization of women's functional and health literacy programs
 - implementation of a participatory research-action on the promotion of youth health

- 1992-1994** Responsible for maternal and child health at regional level within the Italian-Guinean program of Primary Health Care in Gabu Region, Guinea Bissau, for the GVC (Civil Volunteer Group), Bologna and the Ministry of Public Health of Guinea Bissau
Main activities:
- Preliminary study, implementation and management of the national strategy for preventing maternal mortality (Safe Motherhood Initiative) in collaboration with OMS / UNICEF-Bissau
 - Creation of a regional health reference system and "Maternity Homes" for the prevention of pregnancy and childbirth complications in collaboration with the World Bank-Bissau
 - Training of trainers of local health workers and Traditional Birth Attendants, production of educational curricula and audio-visual materials
 - Development and management of a community funding system ("Bamako Initiative") in collaboration with WHO and UNICEF-Bissau
 - Design and implementation of an emergency intervention on the cholera epidemic at regional and national level in collaboration with the European Union, Bissau
- 1991-1992** Active Birth training, Active Birth Training Course (London, UK)
- 1987-1991** Regional advisor for maternal and child health activities in the Italian-Guinean program of Primary Health Care in Gabu, Guinea Bissau, for the GVC (Civil Volunteer Group), Bologna and the Ministry of Public Health of Guinea Bissau
Main activities:
- Promotion of community participation in health activities
 - Training and supervision of personnel working in maternal and child health care districts
 - Implementation of a regional system for nutrition rehabilitation of undernourished children <5yrs.
 - Elaboration and implementation of a strategy to reduce inequalities among users of the district health system
 - Implementation of a regional strategy for the promotion of breastfeeding and complementary feeding
- 1986** Midwife at Midwifery clinic, 'Hesperia Hospital, Modena
- 1984-1986** Scrub nurse, Hesperia Hospital , Modena

INSTITUTIONAL POSITIONS

- DAL 2017 Member of the Save the Children National Scientific board for Emergencies
- DAL 2016 Member of the Regional Board for breastfeeding, Sicily Region
- DAL 2014 Expert consultant for the National Breastfeeding Board, Ministry of Health
- DAL 2011 Representative at the national UNICEF technical-scientific Committee for Baby-Friendly Hospital&Communities Initiatives
- DAL 2005 Member of the Ministry of Health Task Force for the National Training plan for cardiovascular risk prevention.

HONORS AND AWARDS

- 2008 FormFilm Festival Award - Cinema for training, 2008 Edition, Bologna. Italian Trainers Association.
- 1994 Diploma a Honra e ao Merito, for merits acquired in service, Ministry of Health of Guiné-Bissau.

EDUCATION AND TRAINING

ACADEMIC DEGREES

- 2010-2013 PhD in Human and Environmental Health Promotion, University of Siena

- 2006-2008 Master's Degree in Educational Sciences for Adults and Continuing Education, 110/110 cum laude, University of Roma Tre, Faculty of Education
- 2003 Bachelor Degree in Midwifery, 110/110 cum laude, University of Rome-Tor Vergata, Faculty of Medicine
- 1998-2000 University Diploma "Santé Publique et Communautaire" (Public and Community Health), National School of Public Health, Faculty of Medicine, University of Nancy (France)
- 1984-1986 University Diploma in Midwifery, 50/50 cum laude, Faculty of Medicine, University of Modena

OTHER TRAINING DEGREES AND CERTIFICATIONS

- 2011 Effective communication and conflict resolution. Gordon Trainer Diploma (Institute for the Person-Centred Approach, Rome)
- 2009-2010 Person-Centred Counselling Diploma, School of Counselling (Institute for the Person-Centred Approach, Rome)
- 2003-2023 International Board Certified Lactation Consultant (IBCLC)
International Board of Lactation Consultant Examiners
- 2003 Diploma of expert in sex education, Institute of Research and Training - International Institute of Sexology, Florence
- 1991-1992 Diploma of Active Birth Teacher, International Active Birth Teachers Training Course, Active Birth Centre, Londra (UK)
