

ADVANCED SURGICAL EXTRACTION AND IMPLANTOLOGY (ASEI)

A.Y. 2022/2023

CPD SECOND-LEVEL
COURSE

AIM

The CPD course aims to carry out a correct diagnostic approach and formulate a correct treatment plan, providing the basis for an ideal implant-prosthetic rehabilitation, deepening the knowledge of the implant-supported prosthesis, from design to implementation, which takes into due account the biological, functional and aesthetic implications. The knowledge on complications and their prevention will be deepened. The educational objective of the Master is to develop specialized knowledge on the design and execution of the most recent oral implantology techniques as well as to acquire an in-depth knowledge of the safest and most modern techniques and technologies in the field of implant surgery. Il Master is qualified as SCIENCE due to its technical and scientific characteristics.

CARRIER OPPORTUNITIES:

Those who will complete the CPD 2nd level course in Oral Implantology will be able, independently of the laws in force in the various countries, to carry out their professional activity autonomously at private health facilities, in a dependent or free professional regime.

TEACHING METHOD:

The teaching methodology will have a theoretical-practical approach aimed at providing a learning on the problems of the surgical and rehabilitative prosthetic phases to the implant support.
