

IMPLANT DENTISTRY

A.Y. 2023/2024

CPD SECOND-LEVEL COURSE

AIM:

The CPD course in Implant Dentistry (UMID) is designed for the general dentist who has already taken the first step towards the field of implantology. You have already placed implants and now want to develop your practical skills and build up solid, scientific knowledge in order to provide safe, appropriate and efficient treatments.

The 18 months modular Master program takes your time constraints and job responsibilities into consideration. There are six modules of five days each. The teaching modality is blended: a mixed mode approach education that combines on-campus lessons and live distance learning.

CARRIER OPPORTUNITIES:

The graduates will be able to independently plan and implement therapy concepts for the treatment of patients requiring dental implant prosthetics. In addition, graduates will also have the skills required to select, analyse and fully integrate into their own practice a full range of treatments and knowledge in this field of dental implantology.

Partner: Istituto Stomatologico Toscano

Director: Prof. Ugo Covani

Co-Director: Dr. Simone Marconcini

Recipients and access requirements:

- Master's Degree in "Dentistry and Dental Prosthesis or other equivalent qualification class LM-46; EQF:7.
- Master's Degree in "Medicine and Surgery" or other equivalent qualification class LM-41; EQF: 7.

Teaching Method:

The teaching modality is blended: a mixed mode approach education that combines on-campus lessons and live distance learning. The first module will take place in live webinars and the other 5 in presence.
