<b>Title</b>	IMPLANTOLOGY AND THIRD MOLAR EXTRACTIONS
<b>Director</b>	The Master Director is Prof. Ugo Covani
<b>Object</b>	This programme lasts one academic year, during which students will acquire both theoretical knowledge and practical skills. The Master's programme has a theoretical-practical approach aimed at providing learning about the problems of surgical extraction and the subsequent phases of implant-prosthetic rehabilitation. Students will be involved in modern implantology, from diagnosis to prosthetic rehabilitation, and will have the opportunity to come into contact with the latest surgical techniques and technologies.
<b>Structure and methodology of the course</b>	The teaching is blended: a mixed mode approach to education that combines on-campus lessons (25%) and live distance learning (75%). During the Master's course, students will be supervised and followed by the GIIA team in collaboration with Istituto Stomatologico Toscano (IST)
